To Whom It May Concern:

We take great pleasure in formalizing the Union's support for U.S. Representative Neil Abercrombie in his campaign to become governor of the state of Hawaii.

We have worked with Neil Abercrombie for decades on key issues affecting not only the members of the SEATU but also many other workers across the nation. I know from experience that Neil is an effective, reliable leader. He is a man of his word and tireless in his efforts to deliver for his constituents. He is, without a doubt, a true champion of working families.

The SEATU is proud to place our unwavering support behind Neil Abercrombie as he endeavors to serve his home state as governor. He is more than up to the task, and will surely do a fantastic job if given the opportunity.

Sincerely,

Hazel Galbiso
Business Representative
